

FLYERS END NEW LAP

Detroit Lands Near Tokio

Brock and Schlee Complete 12,275 Miles of Trip Around World

Nine and Half Days Remain to Finish Flight in Record Time

TOKIO, Sept. 14. (AP)—The round-the-world monoplane pride of Detroit, landed at the Kasumigaura naval aviation field, forty-five miles northeast of Tokio at 3 p.m. (Japan time). The monoplane left Omura in southwestern Japan at 6:35 a.m.

Arrival at Kasumigaura brings the total mileage by the pride of Detroit to approximately 12,275. Should its copilot, Edward F. Schlee and William S. Brock, elect to attempt the flight across the Pacific Ocean it would mean they would have to fly more than 3,000 miles over to touch their starting point, Harbin, China. Of that distance more than 600 miles would be over the water as it is more than 2,400 miles from Kasumigaura to the Chinese port. A short 100 miles from the Midway Islands to Honshu and about 2,600 miles from Honshu to San Francisco.

The arrival at Kasumigaura also marks the midpoint of the flight, which started Aug. 27. The log of the flight showing date, stops and estimated mileage, follows:

Aug. 27—Harbin, 2,000 miles.

Aug. 28—Canton to Munich, Germany, 800 miles.

Aug. 29—Munich to Belgrade, Yugoslavia, 500 miles.

Aug. 30—Belgrade to Constantinople, 600 miles.

September 1—Delayed by Turkish authorities.

September 2—Constantinople to Bagdad, Iraq, 1,075 miles. Bagdad to Basra to Bunder Abbas, Persia, 225 miles.

September 4—Bunder Abbas to Karachi, India, 710 miles.

September 5—Karachi to Allahabad, India, 550 miles.

September 6—Allahabad to Calcutta, India, 450 miles.

September 7—Calcutta to Bangkok, Burma, 600 miles.

September 8—Bangkok to Hongkong via Hainan, 1,000 miles.

September 10—Hongkong to Shanghai, 700 miles.

September 11—Shanghai to Omura, Japan, 600 miles.

September 12—Delayed at Omura by bad weather.

September 14—Omura to Kasumigaura, near Tokio, 600 miles.

The flight, which has made record after record, is now on its twenty-eighth and one-half days of traveling. Wells and Stevens, holders of the record, made 28 in twenty-eight and one-half days by using airplanes and other conveyances.

MAILS FROM DETROIT

CRIMES AGAINST OCEAN HOPE

DETROIT, Sept. 13. (AP)—Another of a series of messages sent by De-

POOR "CHARLIE" TURNS UP TOES

Plane-Emulating Hawk Dies One Stunt too Many and Falls in Propeller

SAN ANTONIO (Tex.) Sept. 13. (AP)—Flyers at Kelly Field here today mourned the death of "Charlie," the stunting hawk.

Each day Charlie would fly with some plane as it left the ground and accompany it until it returned, emulating every stunt of the plane. Some one tried back-flying and the hawk, so the flyers say, immediately turned his toes to the air and tried the stunt. He would do a half-loop and point his toes toward the sky, but he always failed, recovering himself in a few feet to have another try at the stunt.

Late Tuesday he tried it and fell into a whirling propeller. A group of his friends gave him a military funeral.

Stunt residents in an attempt to dislodge Edward F. Schlee and William S. Brock from attempting the Pacific Ocean hop on their round-the-world flight was directed today by the Detroit Aviation Society, to the American Consul at Tokio.

"Strongly advise against Schlee and Brock attempting hazardous Midway Islands-Hawaiian-Pacific hop," the society said. "Grown-ups are safe enough here they should not endanger fine record by attempting such an extra hazard."

Other messages were contained in a dispatch to the Mirror from Douglas Muir, its correspondent on the Kyle. In his message he said:

TANKS CONTAIN GASOLINE

"The wreckage of the Old Glory taken from heavy sea consists of thirty-four feet of wing, containing three tanks, which held fuel gauge and feed pipes connecting to the tanks. A fourth tank is missing. The other three contained large quantities of gasoline when picked up.

The right wing was clearly distinguishable from the corresponding wing, leaving no trace of the control cockpit except one lever and speaking tube located near the fuel tanks.

"The American flag painted on the right wing was clearly distinguishable and traces of a corresponding flag discernible on the left wing. A portion of the upper wing was painted in the shape of the letters 'V' possibly from the letters W. M. or N.

"The ship's undercarriage and lets where the wings were attached and supports are a tangled mass of stays, giving evidence of boisterous weather in this vicinity which may give a clue to the fate of the three missing men who accompanied Old Glory on this ill-fated endeavor.

DEMPSY
IN NIGHT
WORKOUT

Jack Bars Everybody as
He Goes Through Secret
Drill

LINCOLN FIELD, CHICAGO (ILL.)
Sept. 13. (AP)—Under the glare of the
bright lights, Jack Dempsey engaged
in another mysterious session of
night training, this time at his
training camp tonight, with
everybody barred out on his command.
Flynn, Jerry Luvadis and Gus Wilson, trainers,
and the essential sparring partners,
were present.

When darkness descended on the
place, all the sparring partners
responded and photograph cameras
were chased out and the premises
descended on the place.

And the premises seemed to call for spies
as Fred Tapscott, Chicago police
sergeant, after dinner, all members of the
Dempsey household of forty-
seven people were told to take a walk
out of town for an hour. It
was during their absence that Dempsey
engaged in his secret workout, as
he did Sunday night.

A new sparring partner with a
reputation of having a good left
hand, Alvin Miller, of San
Francisco, was stated to trade punches
with Dempsey, along with Allentown
Joe Gans, and other regular members
of the star. Dempsey did no boxing
today, nor any road work.

TROJANS AWAIT GONG

Southern California Gridders Impatient for First
Workout Tomorrow Morning

BY BRAVEN DYER

September 15 has been a long time arriving but unless something unexpected happens it should reach Los Angeles tomorrow.

September 15, as all grid players and well-posted fans are aware, marks the official opening of the Coast football season.

Both holds have proven effective against many of the best heavyweights in the country. Tonight they will be pitted agains each other in a battle that is to be the greatest mat battle in the local history of wrestling.

Daviscourt worked his way into the title match by subduing Jim London, the Georgia mat star, here two weeks ago. It was the third time London had been defeated here in six years. He put the hardest fight of his career to stave off that defeat, but the crushing power of Daviscourt's headlock proved too much.

If advance reports are to be credited, Stecher will meet Daviscourt at his own game. He will punch when he wants to and in general make the roughing a five-round proposition, with the man least able to stand up under this kind of punishment losing his head to such an extent as to leave big openings to the other.

Another spectacular bout will be furnished by Renato Gardini, the temperamental Italian, and Hassan Mohamed, Fred Winsor's "Terrible Turk." These two employ about the same style of grapping.

(Continued on Page 4, Column 4)

LA COSTE, TILDEN CHALK UP WINS IN NATIONAL NET PLAY

FOREST HILLS (N. Y.) Sept. 13. (AP)—René LaCoste of Paris, defending champion, and William T. Tilden of Philadelphia, champion six times in succession before last year, today swept through their second round matches in the national tennis championship with ease of but one set each.

Favored to reach the final round the French and American stars won respectively from Gilbert Nunn.

LaCoste, 6-2, 6-4, and Berkeley Bell, Aus-

tin Tex., 6-3, 6-2.

De Forest Says Boxing Game Needs Toughening After Looking Over Tunney's Camp

POLOISTS MINGLE TODAY

NEW YORK. Sept. 12. (AP)—Fifteen cents reorganized the British polo team will ride out at Meadowbrook tomorrow in an effort to even the score of the international challenge cup and reclaim it to a third time.

The Americans won the opening game Saturday, 12 to 8, and need

only one more victory to retain pos-

sition of the cup for another three years.

The emblem of su-

ccessfully defended in 1924.

Great Britain.

United States.

into well over \$1,000,000. Soft?

They say it is!

Now a week or so ago, Tunney

got bumped over the right eye by

Chuck Wiggins in one of their spar-

ing sets and suffers a little cut.

There's much to do about this, and the boxing champion lays off

for a couple of days.

No, Tunney is doing just as he

announces. He would do his best

training to outbox and outpoint Dempsey,

and if fortune smiles, strive for

knockout when and if the wide-open

opportunity presents itself. It is the

same old same policy of the ring to

day.

You have two fairly matched

men toughened and tested in this

way, you get real boxers when they clash. That is what made the

fight game what it is today. But it

is my opinion that the more the

boxers are tested, the harder they

approaches a decline. It is getting

away from fighting, and coming

closer to boxing. It's losing its ro-

mantic appeal and developing into a

pure game.

I am trying to moralize.

I'm mostly pointing out the dif-

ference between the training

methods of today and those of

old. Both Dempsey and Tunney

were boxers before they became

champions. It is a bit hard for me

to understand how they can

customized themselves to hard-

ships rather than live in ease and

ease of fighting.

But we have

been boxers long enough to be

accustomed to a ten-

and the purse runs

clean and crisp—ready to

all seasons are taped and be-

tional League race, Babe Ruth's home-run quest, and even the Jacobson case were forgotten as the assembled gentlemen discussed on what has become the most natural pastime—football. Being unable to act Coast Conference rules prohibit any official instruction until the 15th inst.—the officials did the next best thing and told you can take our word for it that there was plenty of football spouted.

Out on Board Field a half-dozen grididers were getting the jump on their rivals by indulging in a little early conditioning. They were better than Barrager, the fullback, who is to be converted into a center. There was Russ Saunders, the hard-hitting fighter who could knock a rough, hard, rugged boxer out of his feet with a single blow. He was Russ Saunders, the hard-hitting fighter who seems destined to land some place as a regular. There was Lowry McCallin, a very likely looking candidate for end, and Tom Steponovich, another

luxury even while training. They're not building stamina this day.

But Tunney is not putting in any hard, strenuous efforts. He's training to be sure, and he's getting himself into excellent physical condition, certainly, but he is not whistling

as he goes along. He's a rough, hard, rugged fighter who could knock a rough, hard, rugged boxer out of his feet with a single blow.

KING TUT TO FACE LOAYZA

(Continued from First Page)

King Tut will meet the far-named Stanislaus Loayza at the Olympic October 11. The match was closed yesterday by Matchmaker Wad Wadham. Loayza is rated as one of the best club fighters in the eastern markets.

However, his last fight was spent as a fullback. He got out

early because he wants to be something familiar with the gentle art of

knocking the ball back to the pigskin carriers before the bell rings tomorrow.

Saunders looks great, as does Mac-

Cauley. He seems more sure of

himself with the ball than the lat-

est rumor crediting Maxie White

with staying at home this fall. Mc-

Cauley has put on some five pounds

plus weight, looks fit and, despite his lack of bulk, will make things very

interesting for the other ends.

Two of the seven matches in which

the leading contenders engaged in

the first round were

between Cooley and

Barrager, the fullback, who is to be

converted into a center.

He is a two-handed gunman and

he is glad to be in another

class. Hudkins is now a welter

while the Chilean fighter is

still a lightweight. Tut and Loayza

meet at 130 pounds.

Loayza has been wired transportation from New

York. The South American will

box on the 27th inst.

year, was not so successful. Like Johnston in the Davis Cup matches, Chandler was slow, stiff and uncertain from lack of practice and lost to Hunter in straight sets, 6-2, 6-7, 6-4. However, Johnston was ranked fifth in the country and Hunter twelfth, but their match today proved the ill-fated American team.

RADIO REACHES DIPLOMAT'S KEN

Popular Amusement Subject of Grave Study

Europe Considers Law to Govern Broadcast

Russian Propaganda Balks Efforts for Solution

BY LIEUT.-COL. W. JEFFERSON DAVIS

Col. Davis during the summer attended international radio and aviation conferences in Europe.

New York, Sept. 13. (Exclusive)

When Irving Berlin toured of a new song, "I'm not the man you'd expect to find in school in world diplomacy, but just that is happening.

At the second international Radio Conference at Geneva this summer I saw some of the most brilliant diplomats in the world, including the framework of new international law which will govern the ethereal wanderings of the most ephemeral jazz as well as the weightiest documents of state.

I attended this conference with Representative Wallace H. White of Maine.

The conference, attended by representatives of all European governments and American observers from Japan and America, was preliminary to the world conference which will be held in Washington in October.

ISOLATION AT END

The short wave length has ended America's isolation so far as the air is concerned. Until about two years ago long-range broadcasting was almost entirely on long wave lengths. The discovery of the carrying power and dependability of the short wave has brought the nations of the world closer together and made imperative new rules and bounds in the ether.

Maintaining the in the execution of international law, the United Nations. Maintaining fifty of the 150 great radio stations of Europe, with a higher output power than the others. Radio is under the charge of using radio to destroy the war with its agenda assailing other governments

WESTERN PACIFIC BUILDING

A New Standard of SERVICE For Office Buildings

"Never before our requests been so quickly complied with or the maintenance of our offices been so satisfactory," say tenants in the new Western Pacific Building.

Our offices are IMMACULATELY cleaned and dusted each day. Windows are kept clean. Corridors are dusted and scrubbed daily. Our own truck service organization is continuously ready to serve you.

Leases now being made for new units. Ready Jan. 1. Special arrangements during construction. See Mr. H. B. Zeigler, Room 317, 1031 So. Broadway. Phone WESTmore 5958 or WESTmore 6251.

Skin still rough, pimply, clogged, after trying so many remedies? Then begin today to use Resinol. You won't have to wait to know that it is healing your trouble. The first application usually stops all smearing and itching and keeps the skin looking healthy. Its continued use for a reasonable time rarely fails to clear away the disorder entirely. A safe ointment for the most sensitive skin. Ask your druggist for Resinol.

Resinol

PUPILS TO STRIKE TO GET BUSES

One Hundred of New Jersey Schools' Students Try to Intimidate Board

WEST ORANGE (N. J.) Sept. 13. (AP)—One hundred school children went on strike today as a protest against the failure of the Board of Education to provide buses for their transportation to and from school.

and spreading the doctrine of Communism.

It has been accused of this particularly, in supposed attempts to subvert public opinion in the British coal strike and in reaching Russian governments on the Rumanian government.

The chairman of the Russian delegation at the conference was Eugene Hirschfeld, chief of the Department of International Communications of the Russian Commissariat of Posts and Telegraphs.

He is a thoroughly sophisticated, shrewd and personally likable diplomat who has undoubtedly lowered other nations without any definite renunciation in behalf of the government of radio propaganda.

RUSSIAN VIEW

The French delegates eloquently prodded the doctrine of "freedom of the air."

The Russians say that by the way their unlimited use of the air for their particular world propaganda.

The outcome of this discussion was,

in the minds of the later more definite formulation of laws defining and limiting rights to the use of the ether. An old legal maxim of tendency, in which the ownership of land and the air above, was cited below and the air above, was cited in defense of restrictions on broadcasting.

In trying to establish precedents were produced to show that the inability of the landowner to occupy or possess the air opens it to the sovereignty of the state. The resolution on the subject was finally adopted by the conference follows:

"The congress expresses the hope that the utilization of the electromagnetic waves at radio frequencies will be but little applied of the principle of freedom shall be without prejudice to the right of each individual state to regulate and control."

Of course, is merely a broad statement of agreement on an underlying principle and provides no solution to the enigma of Russia.

Russia should continue to endeavor to realize a series of fermenting world revolution one can see endless trouble ahead.

SEIZES DISCOVERIES

While Russia has notable scientific achievements of her own, she has been alert in adapting the discoveries and inventions of other countries to her own purposes. In the valuable work of Popoff, Russian scientist, in radio fundamentals has been supplemented by the seizure of all the best produced by others, through governmental support.

Programs in Russia are sponsored by Radioperstasha, Ltd., a broadcasting company which owns the Soviet Friends of Radio. Licensed listeners pay a small annual tax, with a penalty for unlicensed listening. The music, political and literary subjects, music and drama. Land wires are used in relaying the programs throughout the Soviet Union.

EX-HUSBAND DENIED RIGHT TO SHIFT CARE

AGREEMENT WITH SUCCESSOR TO SUPPORT CHILDREN HELD ILLEGAL

SACRAMENTO, Sept. 13. (AP)—A second husband's willingness to support his wife's children by a financial arrangement in which leaves the real father's responsibility for his offspring's welfare, in the opinion of Superior Judge Gregory of Butte County. According to the Superior Court, the judge found guilty of contempt of court for failing to settle with his ex-wife, but had been given thirty days to straighten up the account before being fined.

Walsh told the court he had not settled with his former mate because he had entered an agreement with his present spouse under which the wife agreed to care for his minor children. The legality of the agreement, as well as the moral side of the issue, was frowned upon by the judge, however.

Walsh is approximately \$300 in arrears in his payments.

RAILWAY EFFICIENCY AS NATIONAL SERVICE

WIFE'S DEATH FEARED

MONTREAL, Sept. 13. (AP)—The present efficiency of the railroads must be continuously maintained, not only because of the benefits accrued to the country, but also because the railroads carry the nation's commerce.

FILM INDUSTRY CALLS COUNCIL**Federal Trade Commission Sponsors Conference****Code of Principles to Result from Discussions****"Block Booking" and Other Abuses to be Curbed**

WASHINGTON, Sept. 13. (Exclusive)—Representatives of all motion-picture producers in the country as well as of distributors and theater owners in every State in the Union will participate in a trade conference of the film industry to be held in New York October 10 to decide the auspices of the Federal Trade Commission.

The conference is a direct result of the commission's recent investigation into the activities of the Famous Players-Lasky Corporation and it is expected to develop a definite code of principles for the industry which will eliminate many of the unfair trade practices, including the "block booking" system, disclosed in the investigation.

The Famous Players-Lasky Corporation and its head, Jesse L. Lasky, and Adolph Zukor, were given sixty days by the commission in which to "cease and desist" from using "block booking" and other methods by which it was charged they were maintaining a monopoly on the distribution and exhibition of films, as well as on the production.

It was the intention of the sixty-day order was granted when Lasky and Zukor pledged themselves to attend the proposed conference and to bend every effort at their disposal to have their practices banned from the industry by agreement of all concerned.

It is expected that more than 200 official delegates, including sixty-four motion picture independent theater owners, thirty-six representing producers, five theater managers representing producers also in the theater business, and thirty-two promises by the distributors. This is of unusual importance to independent or small theater owners who suffer most from the effects of the "block booking" system under which they are compelled to take or are allowed to have none of the productions of a producer in the asserted combine.

Hill Enriched by Will of Mother

STRAZTOR (III) Sept. 13. (Exclusive)—That young Harry Hill was ever "my beloved son," and that he came first in the affections of his mother, Mrs. Elizabeth A. Hill, for whose murderer he now sits held, was shown today in the filing in Los Angeles County Probate Court of Mrs. Hill's will.

In the document the mother leaves to Harry the sum of \$50,000 entailed and refers to him in her will as "my son." By sharp contrast, Mrs. Hill's estranged husband, Dr. H. C. Hill, figura in the will simply as "my husband." Dr. Hill was left a bequest of \$500.

Young Hill spent most of the day in conference at the jail with his father and three lawyers.

Calles Removes Wire Censorship

MEXICO CITY, Sept. 13. (Exclusive) Federal censorship over telegraphic messages, which was established in April, was lifted suddenly today when the Western Union Telegraph Company was notified President Calles had ordered the removal of the censor.

While no official reason was given for all the move, it is understood that it is due to the fact that the government considers further censorship of press and commercial messages to be unnecessary.

NOTED POLICE CHIEF DIES **ROCHESTER** (N. Y.) Sept. 13. (P.T.) Chief of police, John J. O'Farrell, one of the "silent cop" used in virtually all cities where traffic direction is a problem, died today. He had been head of the local police force for sixteen years. He was president of the International Association of Police Chiefs in 1910 and 1920, and made honorary president after he refused a third term.

SACRAMENTO, Sept. 13. (P.T.) The Third District Court of Appeal today upheld the action of the Superior Court of Sacramento county in sentencing James Trautman, 16-year-old bandit, to San Quentin for committing a series of hold-ups in Sacramento.

ALLOCATION OF GAS TAX MADE**Sum of \$1,039,000 Goes to New Road Work****Highway to be Surfaced Past Rindge Ranch****Funds Not Available Until After December 1**

SACRAMENTO, Sept. 13. (P.T.) Allocation of \$1,039,000 in new highway construction funds derived by the State from the increase in the gasoline tax by E. B. Meek, director of public works, was announced at the highway quarters today.

The funds, however, will not be available before December 1, but Meeks thinks it advisable to begin planning in advance for the work that is to be undertaken when the funds are received.

It is estimated that approximately \$2,360,000 will be realized by the State under the gasoline-tax increase involved by the last Legislature to provide funds for new highway building. Under the old tax, half went to the counties and half to the State for highway maintenance. The first allocation will be made by the Board of Equalization about November 1 and will be ready for highway disbursement within the next thirty days.

The work to which Meek has allocated funds when they are received include:

Del Norte county—Grading and rock surfacing of a redwood highway from the coast to the mountains eight miles from the south county boundary to Richardson Creek, \$209,000.

San Mateo county—Extension of the Bay Shore Highway from Burlingame to San Mateo, \$150,000.

Alameda county—Construction of Herman's bridge across the San Joaquin River on the Fresno-Madera route, \$150,000.

Los Angeles county—Rock surfacing and oiling of thirteen miles through the Rindge ranch on the South Shore Highway, \$200,000.

San Bernardino county—Co-operation with the Bureau of Public Roads on the Crest Route, \$150,000.

NEW MERGER IN FINANCE FIELD

Commercial Mortgage Group Sold to National

Deal Reported as Involving Over \$600,000

Total Resources of Company Now \$30,000,000

Negotiations pending for several weeks to acquire the assets and business of the Commercial Mortgage Company, a loan company of Los Angeles, a transaction involving more than \$600,000, were completed and approved yesterday by the board of directors of the National Mortgage Company of California, according to an announcement made by James Long Wright, president of the latter company.

The board of directors also elected Eugene Webb, Jr., head of the Commercial companies, as vice-president and a member of the directorate and executive committee of the National Mortgage Company.

The latest news comes just after the regular semiannual dividend on the preferred stock, payable October 1. The dividend is 7%.

OPERATIONS WIDE

In addition to its representation of several western life insurance companies, according to Mr. Wright, the National Mortgage Company has been appointed by the Continental Bond and Investment Company of Baltimore as its exclusive loan agent for Oklahoma, Washington and Oregon. The latter company specializes in the purchase of city mortgage loans ranging from 50 per cent to 90 per cent of the appraised value of improved income-producing buildings and residential properties.

The Continental has just sold an issue of \$5,000,000 of bonds, the entire proceeds of which will be utilized in the acquisition of Pacific Coast city mortgages through the National Mortgage Company at the rate of more than \$1,000,000 a month.

GROWTH RAPID

The National Mortgage Company commenced business in June, 1946, with less than \$100,000 of resources and assets, and now has assets of \$4,000,000, out of a fully subscribed capital of \$5,000,000 and maintains lending offices in Los Angeles, San Francisco, Seattle and Fresno. In May of this year, the company acquired a controlling interest in the Security Housing Corporation of Los Angeles, the combined capital and surplus of the two companies was approximately \$10,000,000 with resources in excess of \$20,000,000.

Earnings of the affiliated companies in the first six months of this year were approximately \$1,000,000, equal to the earnings for the entire year of 1928. Earnings effected through combining company offices, executive staffs and managerial and administrative contributions substantially to the increase in earnings and have resulted in a better service to our borrowing and investing clients."

OIL RIVALRY GROWS KEENER

Marketing Under German Synthetic Process New Phase of World Struggle; Standard Wins Move

BY ELIZABETH CROWE

While the Standard Oil companies and the Royal Dutch-Shell are scrambling over the surface of the globe looking for likely places to sink oil wells, the resourceful Germans have resorted to chemistry as the most effective weapon to protect the German nation in the world competition for petroleum supplies. And what is more to the point, as related in yesterday's news dispatches, the Germans will start this week to market synthetic oil and gasoline manufactured through the new secret process.

The artificial gasoline, according to the news from Berlin, is refined from oil extracted from lignite, and is the result of years of experiment. Plans to greatly increase production are under way, involving generators to break down 400 tons of lignite daily and the increase of lignite production to 26,000 tons daily.

TULSA, Okla., Sept. 13. (AP)—A decrease of 752 barrels in the daily average production of crude oil in the United States was reported today by the Oil and Gas Journal for the week ending the 10th inst., as compared with the week previous. The light-oil decrease for the week was given as 13,573 barrels. The daily average for crude oil for the same period was 1,518,000 barrels, as compared with 2,523,000 barrels for the preceding week.

In the greater Seminole daily average production for the week again decreased by the 46,000-barrel mark set by the operators by curtailment agreement. Production averaged 436,910 barrels a day, as compared with 451,110 barrels for the preceding week, a decline of 14,200 barrels.

The entire State of Oklahoma showed a decrease of 16,588 barrels, while the Panhandle and Midsouth areas gave up 24,065 barrels average daily. Texas production showed a substantial decline with a heavy slump in the Panhandle. Total production decreased 31,962 barrels average daily were reported. California reported a daily gain of 4,765 barrels.

Los Angeles—First oil company is irregular, selling oil to 91 1/2-4, and closing out with 2,750 and Southern California Edmonson was fractionally higher at 27.5. Caterpillar Tractor, in Electrical Products and Central Investments held steady at 71 and 100, respectively.

Oil stocks moved irregularly. Republic Oil Company was steady at 15. Standard Oil of California was down to 14 1/2. Union Oil of California advanced 4 to 4 1/2 and Associates Advanced 1 1/2 to 14. Texaco Petroleum sold off 4 1/2 of a point to 29 1/4 and Shell Union lost a fraction to 26 1/2. Holly Development added 1 1/2 to 14 1/2.

Trading in the oil stocks was more or less distributed with Boundary Cone and Comstock Silver leading the activity. The former lost 1 2/3 cent to 6 1/2, while the latter added 1 1/2 to 10 1/2. Gold and Gold Bullion lost 1 1/2 to a flat demand and Gold Dust sold at 5.

Statisticians to Hear Lack

M. D. Lack, formerly of the State Board of Equalization, and at present a member of the California State Assembly, will be the principal speaker before the regular monthly meeting of the Western Statistical Association this evening at the Hotel Roosevelt. The subject will be "The Value of Research in Government."

J. C. Bennett, also of the California Taxpayers Association, will give a lecture on methods of projecting School Attendance over a period of years.

KINNEAR ADDS SIX STORES TO CHAIN

SAN DIEGO, Sept. 13. (UPI)—An acquisition was made today by P. J. Kinnear, Jr., president of the Standard Oil Company of California and Southern California, and a syndicate of San Diego men, to buy 100 percent of the stock of Spreckels Bank for the completion of the sale of the Spreckels Company of San Diego for the construction of the new building of the First Trust and Savings Bank.

The First Trust and Savings Bank has recently distributed with Boundary Cone and Comstock Silver leading the activity. The former lost 1 2/3 cent to 6 1/2, while the latter added 1 1/2 to 10 1/2.

Trading in the oil stocks was more or less distributed with Boundary Cone and Comstock Silver leading the activity. The former lost 1 2/3 cent to 6 1/2, while the latter added 1 1/2 to 10 1/2.

Displays First Bale of Cotton

On display in the lobby of the Citizens' National Bank is the first bale of cotton ginned in the McFarland district of the San Joaquin Valley.

The bale was grown by Pike & Pulter and bought by the Anderson Clayton Co. of Los Angeles.

The cotton grades good middlings with an exceptionally high percentage of white cotton. The variety is California sea salt, and the total return to the grower from the bale, including by-products, exceeds \$170.

The Citizens' National Bank has recently distributed with Boundary Cone and Comstock Silver leading the activity. The former lost 1 2/3 cent to 6 1/2, while the latter added 1 1/2 to 10 1/2.

NEW ISSUES ON BOND MART

Total of Various Flotations Announced for Initial Offering Today Nearly \$70,000,000

Inventories of investment houses in this market will be further augmented today with new flotation issues aggregating approximately \$70,000,000.

Dillon, Read & Co., having arranged a \$25,000,000 five-year 6 1/2 per cent loan for the Deutsche Bank of Berlin, next to the Reichsbank, the largest banking institution in Germany, has agreed to finance a \$10,000,000 loan in the United States, England, Holland, Switzerland and Sweden. Proceeds will be used principally for credits to foreign German companies, principally to small German companies, which are heavily involved abroad and which have access only to short-term credits.

The Deutsche Bank was organized in 1870 with its principal office in Berlin.

Bond Issues Announced

A new issue of \$45,000,000 United Porto Rican Sugar Company 6 1/2 per cent secured sinking fund bonds, series "A," with determinable stock features, will be offered by the company to the public.

The company is owned by the United States Sugar Corp., the American Sugar Co., and the National Sugar Co.

The company also owns approximately all the common stock of several operating companies and controls others.

Canadian Lanes Out

A loan of \$12,210,000 for the Province of Nova Scotia, in the form of twenty-five-year 4 1/2 per cent debentures, is being offered by the banking group headed by Dillon, Read & Co., Inc. and the Canadian Trust Co., Ltd.

Proceeds of the issue will be used to refund obligations amounting to \$8,400,000 to provide additional working capital for the company's operations, principally for highway and bridge projects of the Nova Scotia Power Commission, which is

now in the heat of New York Harbor at Hoboken, N. J.

Mail Issues Out

P. W. Chapman & Co., Inc., and the Steenbeck Trust Company are heading a group to offer about \$1,350,000 Houstonian bonds.

The bonds will be 9 1/2 per cent and secured by a trust indenture.

The bonds will be offered at par.

SALES OF LIGGETT DRUG CHAIN GROW

N. Y. Sept. 13. (AP)—Sales of the

440 Liggett drug stores in the

first eight months this year reached

\$8,007,587, an increase of \$4,393,574

over the same period last year.

Annual sales were \$24,601, larger than

the year ago. The stores are operated

by the Liggett, Inc., a division of

the United Drug Company, subsidiary of the United Drug Com-

pany of Boston.

NET EARNINGS OF RAIL LINE LOWER

N. Y. Sept. 13. (AP)—The Buffalo, Rochester and Pittsburgh Railway earned only 17 cents a share on the preferred stock in the first half of 1937, in contrast to 43 cents a share on the common stock after provision for dividends.

The first quarter earnings were \$10,000 from \$40,510. The second quarter showed a net loss of \$20,

796.

MACHINERY SALES REPORTED HIGHER

N. Y. Sept. 13. (AP)—The machinery and machine tool industry has taken on a better tone and the sales trend is upward, says American Machinist.

In Chicago there is a gain in activity. The market in Cincinnati was lively. A gradual recovery in sales volume is reported from Cleveland and Indianapolis sees a better outlook in the number of inquiries being received. Improved figures are expected in the South, the result of higher crop returns, suggests a good fall trade.

Cotton Closes Higher
Early Decline

NEW YORK, Sept. 13.—(AP)—While stiffening of money rates, preliminary to the payment of income taxes on the 15th inst., resulted in considerable liquidation of high-grade mortgages, spirited buying developed in a few of the lesser-grade and semispeculative issues. Offerings in some cases were fair, but the general belief is that the tightening of credit charges is only temporary had a tendency to limit recovery to small fractions.

Minimum gains in items, most of them bearing low coupon rates, were the leaders in buyers' favor. A number of such issues were bid up 1 to more than 2 points to 75% or 76% of par, notably a 4 per cent bond of the Wisconsin Central, Pennsylvania, Southern Railway, Pittsburgh, Cincinnati, Chicago and St. Louis, and a 5 per cent of the Erie.

Convertible also were strong, including Erie "D" 4% and Delaware and Hudson Co.

The quotations represent sales of bonds in the market, and do not include purchases made by the order of the New York Stock Exchange. To facilitate transaction, the date is indicated when the issue was brought into the market, and the date of the latest price quoted.

Mostly two-cent increases attained new peak prices in the American Telephone and Telegraph, International Harvester, and Cotton.

NEW YORK CURB STOCKS

NEW YORK, Sept. 13. (AP)—Buying of various industrial and public utility stocks which appear attractive to speculators for special reasons, and an upward surge of railroad shares in the late hours, were the outstanding features in today's curb market. There were numerous irregularities, including losses running as high as 3 points.

Public utilities failed to show group strength, but both Philadelphia Electric and United Gas Improvement mounted rapidly, accompanied by a rise in the telephone former to be absorbed by the latter. Directors of United Gas Improvement have before them a petition from Philadelphia Electric stockholders proposing a loan for a long term rather than acquisition of stock.

Calumet Corporation shares, both old and new, showed a demonstration of continued strength, further reflection of the excellent prospect in the rayon industry, the preferred jumping 11 points and the new common more than six to new peak prices.

New York Central new common, traded in on a "when issued" basis, responded to strength of the road's old issues, the new issue having climbed up 6 points to 160 5-8, the highest at which it has ever sold. Lackawanna Securities also was strong in the late dealings, rising 10 points to 100 1-2, having closed after having established a new low record in the earlier trading.

Oils changed hands in large numbers, but price changes were not large. The new issues of Gulf and Prairie Pipe Line, which advanced a point or more, Bancit Corporation spurred ahead more than 4 points to 100 1-2, despite talk of a split-up of the stock.

Weak spots included Curtiss Publishing, Auburn Auto, Dominion Stores, Metropolitan 8 and 10, United Metropolitan and several other specialties.

The regular price is settled when same as the last and both new and old when same as the high.

LA LOS ANGELES MARKET

CATTLE—An active demand showed up yesterday's supply readily at moderate steady prices. The market was reported to be very strong, and some said that record last Monday.

Two sets of medium 12-month-old Southern California feed lot steers quoted for \$8.50. Other steer sets included half a load of medium 12-month-old steers at \$7.50, and a load of cattle at 7.00.

A set of mixed cows and heifers averaging 800 pounds reported at 7.00. Odd head of cows and calves were offered at 6.50.

Two sets of medium 12-month-old Southern California feed lot steers quoted for \$8.50. Other steer sets included half a load of medium 12-month-old steers at \$7.50, and a load of cattle at 7.00.

A set of mixed cows and heifers averaging 800 pounds reported at 7.00. Odd head of cows and calves were offered at 6.50.

Young "Prince Charming" Ends Love Affair by Killing Sweetheart and Himself

WOODCRAFTERS' MEETING OPENS

Biennial District Convention of Order in Session

Reports Show Organization in Flourishing Condition

Officials Deliver Addresses on Fraternal Topics

Approximately 1500 delegates to the biennial district convention of the Neighbors of Woodcraft assembled yesterday for the first business session at Moore Hall, 1094 South Grand Avenue, to hear the forecast for a banner year for the order in addressed by Grand Clerk J. L. Wright and Grand Barker Mary F. Hurley, both of Portland, Or., Beulah Alden of Alameda, district organizer, and others.

The morning session was devoted to the introduction of grand officers and the members of fourteen visiting districts. Addresses were given by Frank J. Marcelli of Los Angeles Club, Los Angeles, one of the four local units which are hosts to the visitors, to whom Myrtle D. Clark, of the Michigan Club, after reports of various committees in the afternoon, Grand Clerk Wright gave an address in which he declared the financial standing of the order to be excellent, with assets of approximately \$4,000,000 invested in securities which net the order more than 5% per cent.

Grand Adviser Margaret Chapman of Laramie, Wyo., talked on "Cooperation, Protection, Friendship and Brotherly Love" and strongly advocated the practice of greater fraternality in local units. Grand Barker Frank P. Marcelli told visitors to the Neighbors of Woodcraft what it means to her, saying that the desire for fellowship and security were the chief aims of the organization, and that the order and thus to her is an organization for mutual welfare.

The day's activities closed with a banquet at the Los Angeles City Club followed by ritualistic ceremonies in the convention hall.

The Pennsylvania Federation of Women's Clubs has purchased 100 acres of land along the Lincoln Highway upon which they will plant 100,000 trees.

VICTIMS IN LATEST SHOOTING TRAGEDY

BULLETS WRECK LOVE TRIANGLE

Boy Kills Railroad Man's Wife and Himself

Lad from Mexican Family; Woman American

Worry Over Lack of Money Believed Cause

The infatuation of an American woman 46 years of age for a Spanish youth of 20, whom she called her "prince charming," came to a tragic climax yesterday when Satero Chavez Medina, who will be an heir of a well-known Guatemala family, and co., killed both himself and Mrs. Loretta T. Giles, wife of a Needles railroad man. The killing took place in Mrs. Giles' apartment, 3818 University Street, Los Angeles.

Delos Giles, the husband, is expected to take his wife's body to the grave. The two, Ivan, 19, and Mrs. Medina, who also stated that Mrs. Giles lived on a ranch near Carpinteria. Mrs. Ida Kelley, an intimate friend of the Giles family, arrived from Needles at Mrs. Giles' apartment shortly after the killing took place.

Medina's father died some time ago and a large estate passed into the hands of administrators for the care of his widow. Mrs. Medina cultured and educated far above the ordinary youth in Mexico lived here in considerable style with rooms at 123 East Adams street and was well supported financially. Late in April, his allowance was reduced to a pittance, he and he began searching for work.

Mr. C. Vargo, in the upstairs of where Mrs. Giles lived, said she saw Medina enter the outside staircase to her apartment and that only a few minutes later she heard a shot and ran down stairs screaming. "He shot me," Detective Lieutenants Sperry and Donahoe answered the police call from the Vargo home and found the boy lying on the floor, dead, with a bullet hole through his heart.

Detective Lieutenants Sperry and Donahoe learned that the boy was a son of Mr. and Mrs. Medina, who live in Carpinteria. They are the son of the University of Southern California. Mrs. Giles, they were told, had come here to receive medical treatment and was making rapid progress. She did not work at nursing, it was said, since she first went to the Vargo home four or five months ago.

DETERMINED TO KILL HIMSELF

Medina several times told friends that he was going to kill himself because his allowance had been cut off. He had been away from home the hour before the shooting said he was going out to get money with which to pay a \$50 debt and that he felt very blue. He attended T. M. Goss' funeral and got a license to operate an elevator, but was not working.

Pawnshop tickets in his pocket led the detectives to begin an investigation. They learned that he had been in his room, they learned, and he had many revolver. He had many affairs of the heart with girls here and elsewhere.

In one of a number of letters, Mrs. Giles wrote to him while she was on a ranch near Carpinteria and elsewhere over a period of many months, she said.

"You cannot imagine how I miss you. I love you more each hour I live. I dream of you last night. I see you beside me every way I turn."

"My dear bundle of love" is the way another letter was addressed. "I have just one thought and that is to get back to Los Angeles and be with you again. I am still a little afraid. Baby dear, I love you more than you will ever know."

Friends of Medina believe that in a fit of despair or depression he went with Mrs. Giles, he decided suddenly to kill himself and take her with him.

AIDED BY OFFICIALS

However, without the aid of the government officials Mr. Winsman said much of his work could not have been accomplished.

"General F. Mather, director of national parks, and Horace M. Albright, superintendent of Yellowstone Park, thought for us (Mr. Winsman and his party) that all the time and especially during the President's tour through the park. They not only made certain pictures possible but their efforts has touched us deeply."

On the eve of his departure from the Yellowstone Park, Mr. Winsman received a letter from Park Superintendent Albright in which he highly complimented the Pasadena man on his work.

LIFE TERM ASKED FOR DR. CABLE

Prosecutor in Frazzini Shooting Case Argues That Slaying Was Deliberate

Declaring that the slaying of Donaldo Frazzini, 14 years of age, was deliberate, Dep. Dist.-Atty. Donnan yesterday in Superior Judge Edmond's court asked for life imprisonment for Dr. Louis Cable, on trial for five days on a charge of murder.

The boy was shot while hunting rabbits in the Lamontien property of Dr. Cable, and was brought to June, with his father and brother. Dr. Cable asserted that she stumbled, causing the gun to discharge.

Byron Ransome defense attorney, in his argument to the jury, asserted that the shooting was accidental and that the defendant should be acquitted. The case probably will go to the jury to decide today.

GIRL CASE GOES TO TRIAL

Charged with betraying his pretty Irene Toth, a Hungarian girl, under promises of marriage, Caspar Peruski went on trial yesterday in Superior Court against Miss Toth named Peruski as the father of her baby. Peruski is said to have based his asserted refusal to marry the girl on the ground that under the Hungarian system she belonged to different castes. The trial will be resumed this morning.

As Federal Collector of Customs in the Hawaiian Islands, Mrs. Jeanette Hyde handles annually an average of \$1,000,000 of government money.

COOLIDGE WILL LIVE IN PHOTOS

Wineman Art Group to Hang in Yellowstone Park

Twenty-one Camera Studies Made by Artist

Collection to Be Exhibited in Los Angeles

(Put Page of Pictures on Page 12, Part II) Twenty-one camera studies of President Coolidge and members of his party, taken by Mode Wineman of Pasadena, nationally known camera naturalist, during the President's visit to the Yellowstone National Park, will be hung in a Calvin Coolidge room in the Yellowstone National Park museum. This fact was learned yesterday when Mr. Wineman arrived home following a three months' tour of the park, during which time he took photographs to complete the collection to be exhibited in the national park museum.

This trip was Mr. Wineman's sixth to the park over a period of twenty-five years. His first was in 1902 when he toured the national reservation in the pictorial stage coach. He made the trip on horseback. During the previous visits to the park he made thirty camera studies which now are on exhibition in the museum.

TOURS WITH COOLIDGE

Mr. Wineman's trip to the park this year was made at the invitation of the government to complete the collection of photographic classics started by him. He was in the park when the President's party arrived and was invited to join them. He was the only one invited to join the President and was the only one for whom the President posed. Mr. Wineman is a nonprofessional naturalist and the pictures taken of the President and members of his party were the first ever taken by Mr. Wineman in which individuals were included in his camera studies. Although Mr. Wineman has a life-time interest in taking photographic studies of nature, he has never done it for money. In two halls of the Los Angeles county museum and the Natural History Museum of the Canyon museums are exhibited photographic nature studies which Mr. Wineman has donated to the public. The pictures prepared for the Yellowstone National Park Museum also are being donated to the government by Mr. Wineman.

GO TO WASHINGTON

Mr. Wineman will start Monday to prepare the photographs for exhibition. They will first be sent to Washington, D. C., where they will be exhibited in the Palace of Fine Arts there will go to New York and other eastern cities. They will be sent in a few months to Los Angeles and exhibited here for a short period before being added to the Pasadena Mr. Winsman's home city. After being exhibited at Pasadena the collection will be taken to the Yellowstone Park Museum, where it will be permanently installed.

Mr. Winsman declared yesterday that his experiences in the national park throughout the summer are unforgettable. In addition to taking photographic studies around the grand loop a week was spent in taking photographs in the Jackson Hole country of the Tetons range, which Congress is bestowing upon the Yellowstone National Park. At the present time the Tetons range is just outside of the park reserve and it is likely that when the issue is called the Tetons will be placed in the range may be placed before those Congressmen who have not visited the park. Another week was spent by Mr. Winsman in taking scenes along the Colorado River and its tributaries to the park and still another week in the high mountainous country near Grasopper glacier. Two days were used in cruising in a government boat on the Colorado. Winsman also obtained studies of Colter, Langford and Stevenson peaks.

AIDED BY OFFICIALS

However, without the aid of the government officials Mr. Winsman said much of his work could not have been accomplished.

"General F. Mather, director of national parks, and Horace M. Albright, superintendent of Yellowstone Park, thought for us (Mr. Winsman and his party) that all the time and especially during the President's tour through the park. They not only made certain pictures possible but their efforts has touched us deeply."

On the eve of his departure from the Yellowstone Park, Mr. Winsman received a letter from Park Superintendent Albright in which he highly complimented the Pasadena man on his work.

LIFE TERM ASKED FOR DR. CABLE

Prosecutor in Frazzini Shooting Case Argues That Slaying Was Deliberate

Declaring that the slaying of Donaldo Frazzini, 14 years of age, was deliberate, Dep. Dist.-Atty. Donnan yesterday in Superior Judge Edmond's court asked for life imprisonment for Dr. Louis Cable, on trial for five days on a charge of murder.

The boy was shot while hunting rabbits in the Lamontien property of Dr. Cable, and was brought to June, with his father and brother. Dr. Cable asserted that she stumbled, causing the gun to discharge.

WIDOW ASKS ESTATE OF SLAIN MATE

Lawyer Argues Her Being in San Quentin No Bar to Getting Cowboy's Money

bank that was all Tom Kerrick left.

Attorney Mayock argued and demanded that he be appointed administrator on the ground that he represented Mrs. Kerrick, who he said, is entitled to the money, even though she is in prison.

Judge Valentine continued the matter three weeks for a more extended hearing.

TARIFF CAUSE OF PROSPERITY

(Continued from First Page)

this prosperity shows that protective tariff is a good thing for this nation.

Strawn also predicted that the prosperity in the United States will be continued for some length of time, but possibly not on such a rapid rise as during the last year. "I expect that the world will continue to have some foreign and domestic affairs that will cause any downward change," he said. "If the frost holds off for two weeks or more there will be a large bumper crop of fruit this fall." (See page 11.)

Mr. Strawn was a guest at the State Bar Association Friday at the Hotel St. Francis.

SECRETARY ARGUES HER BEING IN SAN QUENTIN NO BAR TO GETTING COWBOY'S MONEY

Secretary of Labor Davis, who is director-general of the Loyalty Order of Moose, will visit Los Angeles early next month, it was announced by Judge Valentine in Superior Court yesterday in proceedings for administration of the small estate left by Tom Kerrick, motion-picture cowboy, who was shot during a gin party in his West Hollywood home several months ago.

Sister of Mrs. Kerrick, the widow, Mrs. Sarah Kerrick, the widow, who now is serving a sentence for her husband's shooting.

The proceedings before the court were opened by Attorney C. C. Ashurst, representing Joseph Kerrick, brother of the slain man, who seeks letters of administration. The brother is seeking to lay claim to the few hundred dollars in the

estate of the Superior Court and Gareth Hughes, motion-picture actor, were among those indicted.

Dictator Al Cummins, in his report on the concave, stated that the Los Angeles club had won first prize in the convention parade. It depicted scenes of life in Southern California and contained a miniature reproduction of the new City Hall.

SIGNAL CHANGE ASKED

Chief City Electrician Manahan yesterday asked the City Council for authority to locate an automatic traffic signal at the corner of Broadway and Hill Streets.

Mr. Manahan said he was much more interested in connection with the development of aviation and the improvement of air transportation facilities in the Southwest than the people of California.

For example, Mr. Manahan

said, put up a signal at the intersection of Broadway and Hill Streets.

He would be surprised if the

people of California

would be surprised to know

that the people of California

are more interested in

aviation than the people of California.

The next encampment of the veterans of the Spanish-American War will be held in Havana. The boys had some trouble in getting into Cuba twenty-nine years ago. Now that they are full of years they will be welcomed as honored guests.**THE FLYING CAR**
A German engineer has invented an airplane that folds up so that it can be used as a motor car on a city street. There is a fear that wings that fold easily break easily. The idea will develop in time, but the pioneering is going to be hazardous.**CITY OF SILENCES**
The Chicago City Council is trying to put rubber tires on all milk wagons and rubber shoes on the horses that are still used. Now if they could deliver the milk in rubber bottles the laetate delivery could be lifted to a noiseless art instead of a disturbing errand.**LADY INVENTORS**
Women are declared to be weak in inventive genius. They do not bother the Patent Office much with their wares. Nearly all the business comes from men. Men have to be good inventors in order to get by with the ladies. A woman who isn't much of an inventor can tell in a second whether an invention is any good or not.**GOOD SPORTS**
The Prince of Wales is the best dancer in the royal family. Prince George is the best tennis player and Prince Henry is the cricket star. Strange to say the Prince of Wales is the best horseman of the bunch. His spills have been because of the wild chance he has taken. The family is able to make a showing in all the sports dear to the British heart. No wonder they are popular.**THE USEFUL SHARK**
The shark has become one of the most valuable pluckings of the vasty deep. Various industries use practically all of the carcass except the bite. It is a pity that some of our trousered sharks cannot be readily disposed of to like advantage. The shark of the open sea is not as mean as he is usually described. There are only a few species dangerous to man and these may be readily avoided by a skilled swimmer. The human sharks are far more pestiferous.

THE COLORADO WILL-O'-WISP

The seven-State Colorado River conference at Denver which, after a two weeks' session, recessed to convene again next Monday, has so far made scant progress toward an agreement which will enable the government to proceed with the long-delayed plans for river development. It is too early to say that no agreement will be reached, but the signs are not auspicious. Such progress as was made toward reconciling the dispute over water allocation is offset by the appearance of new points of difference—notably the "States' rights" power issue injected by Senator Key Pittman of Nevada and championed by Arizona as a welcome addition to her consistently maintained program of obstruction. This issue, unless settled next week, is not unlikely to send the Congressional delegations of the upper-basin States to Washington to fight instead of to support the Swing-Johnson bill.

The California delegates, headed by Gov. Young and dominated by the same interests which two years ago hamstrung the six-State pact by the Finney reservations, are standing stubbornly on the platform dictated by the Johnson clique and indicate that they will yield nothing, especially on the power issue. Purposely deferred at the first session in favor of an effort to get together on water allocation, the power battle is to be the main feature of the rescheduled conference. All the conferees have apparently satisfied themselves that power is the real meat of the Colorado coconut and are girding themselves for a finish fight for the countless millions of dollars' worth of hydroelectric power which they fondly envision as the result of damming the Colorado.

It is time that the several parties of interest in the Colorado question should acquaint themselves with the disagreeable fact that the supposed power bonanza so confidently counted on may turn out to be worth next to nothing. The power will be there but, if recent developments are any criterion, there may be no market for it.

From the beginning it has been the contention of the authors of the several plans for high dams on the Colorado that the cost of such works would ultimately be repaid through the sale of hydroelectric power to be generated at suitable power plants at the dam site. The Swing-Johnson bill itself is entirely dependent upon that consideration. The act provides that the government shall advance up to \$125,000,000 to defray the cost of a high dam at Black's or Boulder Canyon and an all-American canal to Imperial Valley, with this provision (Sec. 4(b)):

Before any money is appropriated or any construction work done or contracted for, the Secretary of the Interior shall make provision for revenues, by contract or otherwise, in accordance with the provisions of this act, adequate in his judgment to insure payment of all expenses of operation and maintenance of said works incurred by the United States and the repayment, within fifty years from the date of completion of the project, of all amounts advanced . . . together with interest thereon.

Subsequent sections provide for the making of such contracts for both water and power, but, of course, the great bulk of the revenue is expected to come from the sale of power to corporations, communities and municipalities.

In other words, the government must have bona-fide, signed-up customers for something like \$100,000,000 worth of power, over a period of fifty years, before it can turn a wheel under the provisions of the Swing-Johnson bill. If such customers are not available the dam cannot be built under the act as it lies.

Largest of all the prospective customers for Boulder Canyon power is the Southern California Edison Company which, a few years ago, it itself stood ready to finance the dam for the power to be derived therefrom. As the biggest wholesaler and retailer of electrical power in this region, the attitude of the Edison company will, in a degree at least, tend to determine the attitude of the other private power companies.

Present indications are that the Edison company will not be in the market for Boulder Canyon power. Its officials say quite frankly that they have found they can generate electrical current much more cheaply at their improved steam plants than it can be produced by water power when the heavy cost of transmission is added. Because of this fact the company has abandoned its costly observation stations on the Colorado River and has withdrawn from consideration of the river's power potentialities.

If the Edison experts are right, it is the most serious reverse which the Colorado River project has suffered since its inception. If the Edison company can generate electrical power more cheaply at local steam plants than it can be created by the Colorado, then so can every other organization in the business of generating current, including the city of Los Angeles. In such case the chief source of potential revenue from the Boulder Dam vanishes into thin air and the Swing-Johnson bill becomes an empty gesture. It can be passed but nothing can be done under its provisions until the government is able to contract for the sale of enough power to pay the entire cost of the project. If there should be no market for the power the whole undertaking must halt right there.

Undoubtedly there will be many to take issue with the Edison engineers in their findings regarding the relative cost of steam-generated and hydroelectric power, though these findings have been tentatively verified by writers in technical publications on the subject.

The Municipal Power Bureau's own desperate anxiety to build a steam generating plant here would seem to confirm them, though the Power Bureau insists that it hopes ultimately to supply the whole local field with hydroelectric current from Boulder dam.

In any event, with this uncertainty created, it is extremely doubtful if any conservative dealer in power will contract for Colorado River current for so long a period as half a century. In the main, it is to be expected that the smaller power companies will follow the lead of the Edison company. The city of Los Angeles cannot make a contract of this magnitude save under exacting legal restrictions and probably not without direct authorization by the voters. The same situation obtains in other political subdivisions.

Unpleasant as this outlook, it cannot be ignored. If competent, disinterested investigation should demonstrate that the enormous hoped-for revenue from Colorado River power will never actually materialize—as it failed to materialize at Muscle Shoals—the sensible thing will be to revise the undertaking in accordance with the new conditions and before it is too late.

The Swing-Johnson bill specifically provides that the dam to be built under its provisions shall be primarily for river regulation and flood control, secondly for impounding water for irrigation and domestic uses, and lastly for power. The first two purposes would be served as well by a low dam as by a high one.

The government is committed to the construction, at its own expense if necessary, of a dam adequate for flood control and, incidentally, for conservation of water.

An amendment to the Swing-Johnson bill providing that in case the government shall for any reason be unable to contract for the sale of power, it may nevertheless proceed to build the dam up to the height necessary for flood control would appear to meet every possible contingency.

It would provide at once the primary objects of the government, of the Swing-Johnson bill sponsors, of Imperial Valley and of the city of Los Angeles—to wit: flood control, flow-equalizing, desilting and water conservation for irrigation and domestic use. It would remove the chief cause for the recalcitrance of Arizona. It would make possible immediate beginning of construction instead of being forced to wait on the signing of problematical power contracts. At best the project will require from seven to ten years for completion of a high dam after work actually begins and two to three years to complete a low dam. And any year may see a Mississippi flood in Imperial Valley.

Such an amendment would not in the slightest degree prejudice any of the actual or theoretical advantages of the Swing-Johnson bill as it is now written. It does not presuppose a failure to sell the power but merely provides a means to save the other benefits of the project should the power prove unsatisfactory.

It would make of the Swing-Johnson bill a practicable and instantly workable document, with every advantage it now has and several of which it does not have.

PROPER EGOTISM

Egotism is warranted when it is backed up by performance. A man who does things may be interesting in telling about them.

A Complete Failure

SUPREME COURT

Nelson Harding in the Brooklyn Eagle

NATIONAL JEALOUSIES

In connection with the eighth assembly of the League of Nations the correspondents comment upon the jealousy shown by representatives of the smaller powers over the authority and arrogance indicated by the big guys. This could have been expected. The smaller peoples crave all the recognition they can gain at Geneva. It may not mean anything but they like to be considered as of importance. It was the purpose of the League to give them this consideration but the great powers are careless with their courtesy and are inclined to take short cuts to reach the results. They are possibly tight, but are not always diplomatic. The little governments do not like to be patronized. Uncle Sam's affirmations of the Monroe Doctrine have doubtless saved the life and independence of more than one South American republic but a great many Latin-Americans are inclined to resent what they term the omniscience of this nation. Sometimes they are mighty touchy about it.

They cannot realize that we have only the feeling of doing something for their own good. The big brother idea does not reach them. The admitted great powers of the world should be amably diplomatic in their relations with the minor governments and permit them to achieve and hold all the prestige possible. Let them have all the rights to which they are entitled—and some over. But all this with the thought of sparing them the warrant for getting jealous of one another. When men speak a hundred different tongues it is hard to provide an understanding that makes for enduring peace.

There is too, the delicate subject of age. So far we have shown a marked preference for the late fifties in the age of our Presidents. Roosevelt was the youngest—43. Cleveland was 48, Polk and Garfield 49, Grant 46, but all the rest were 50 or over. Washington was 59 or over. Jefferson 57, Madison 44, Monroe 58, John Quincy Adams 61, Jackson 52, Van Buren 44, W. H. Harrison 53, Taft 61, Wilson 55, McKinley 52, and Coolidge 51.

Man has many inventions to his credit, but still sticks to the old way of masking love.

Americanism: Remembering the homehead play; forgetting the home run that cleared the bases.

You can tell by looking at a man that nothing ever happens to him more thrilling than a special delivery letter.

Grandmother may possibly have a secret regret that she never had a chance to dress like the girls of today.

The old liver horse was wise. He recognized the first symptoms of the homehead play; forgetting the home run that cleared the bases.

Immaturity is the one big thing modern young people must overcome. That accomplished, they will be all right.

The post-mortem showed that his stomach had been granted a divorce because his palate had loved not wisely but too well.

Equal rights, as is: A bald man in an elevator removing his cap while a woman's wide hat scratches his eyeball.

A sage once wrote: "Set a beggar on horseback and he will ride a gallop." Write your modern version.

Critical Europeans say we have no rains in this country. They don't seem to understand it is because we elect our rulers every four years.

Correct this sentence: "My husband likes to go to the store and match a ribbon for me."

Since former Senator Miles Poindexter told that story about the long hairy whale he caught, other fishermen have piped down because they know they have been beaten by Miles.

Chicago will be the scene of the meeting of 1900 of the country's best bridge players in December. One of them trumped his partner's trick—the Windy City's famous hard-boiled gunmen will take to cover.

Another kind of fish story that is now often heard comes from the lips of vacation golfers returning from distant courses where they got a long one away.

The Wilshire Brothers.

LOS ANGELES, Sept. 11.—[To the Editor of The Times:] In Justice to the memory of William B. Wilshire, whose name does not appear in the statements eulogistic of the late Gaylord Wilshire, allow me to state that he was the senior brother and principal in the Wilshire electric improvement business at Auburn Lake. William B. Wilshire had quite a national reputation as the "Wilshire Safe" man and when he moved from San Francisco, established himself and his brother Gaylord in my offices on Broadway, then Fort street, and I acted for them as cashier in a subdivision of the Wilshire Safe Co. W. B. Wilshire was a friend of Frederick Ward and John Drew, who visited the offices occasionally, and was a very companionable whole-souled man, also the mainstay of the enterprise bearing his name.

SCRUTINIZING CANDIDATES

BY ALMA WHITAKER

To be really consistent nowadays, we ought to be psychoanalyzed by modern scrutiny to bear upon our Presidential candidates.

They ought to try them out on the higher intelligence tests—some of those fancy, intricate, confusing little questions we consider so valuable in gauging whether small boys in Juvenile Hall have properly co-ordinating minds.

According to how the questions are asked, the answers given, we mark them abnormal, normal and normal.

We ought to be psychoanalyzed by Freudian methods all about the job of running the country.

MINE VALLEY SUFFERS
AS BANK CRASH RESULT

Dreams of Youths Fade,
and Want Faces Many and
All Voice Plea for Aid

WHO SAID WEEKEND

Since time immemorial the men of the State have been sending their sons to assume their duties this fall, many of Inyo County boys will have to console themselves with the report of the receiver of the Inyo County Bank.

Scientists have been working for a great long time now to find ways and means to reduce the number of men in the valley and when I met him he said he would be glad to do business with me. I said, "That's fine! You can't afford to have men on those farms of mine." He shook his head. "Oh, my, no!" he said. "We couldn't think of lending any money up here in that valley now."

"I will tell us up here what we are going to do if we cannot get money to work on?" Suco asked.

There's a question that Los Angeles people ask. The people of the valley who have been gathered to the city cannot see where they are going to get any immediate help from the proposed purchase of the ranches by the state or by any other agency.

What they need right now is money at a low rate of interest to work on until they can get on their feet again.

PAYMENT IN BANK

The Carl Walters family is another example. Talk about a clean-cut, sturdy American family! Lived in the valley for many years. Children growing up, some have been to college, and one girl who had planned to go this fall. Mrs. Walters tells all this, while her husband was away, she had some men cutting alfalfa in the field. She went to the bank on that fatal day and stood against as she read the notice on the door that the bank was closed.

Mr. Walters had received about \$60,000 recently from the city as payment on the ranch which the city bought.

I had taken the money to the bank just about ten days before it closed. Mr. W. W. Watterson, another day.

"I spoke to M. G. Watterson, I did not know him as well as I know his brother, W. W. Watterson. Why, we have been friends for many years. I told him that I wanted to put the money in the bank temporarily before putting it to work at \$100 a ton. I told him he could put \$100,000 worth of hay in Watterson stock and put the other \$60,000 in our account.

NEVER BEEN BETTER

I made a specific point of asking him how everything was in the bank. He said, "It's all right, and he said, "Never been better." Said Walters.

Not a whimper, a tone of bitterness as she told the story. One man in the city in many cases had turned neighbor against neighbor, but here crash seems to be drawing them close together again.

Following the Walters, it might

be the last of the

beginning of the end.

Of Interest to Women.

SOCIETY

BY JUANA NEAL LEVY

Coming as a crushing blow to The Spinster Club, it was the announcement made last night by its president, Miss Betty Bettinson, that her engagement to Leonard E. Harbach, son of Mr. and Mrs. Leonard E. Harbach of McCadden Place, the news being told at the buffet supper party with which Miss Bettinson entertained at the home of her parents, Mr. and Mrs. William J. Bettinson, 1144 Hillcrest Avenue, Pasadena, honoring Miss Dorothy and Ethel Show Hollister. Her wedding is to be an event of next Wednesday evening in St. John's Church.

One hundred guests were bidden and the members of the bride party, who were to be bridesmaids, were seated at one large round table, the other guests being seated at smaller tables adjoining.

Dahlia and gladioli in the pink shades were used in the arrangement of the supper tables arranged in the ballroom, and the news was told in a novel manner.

A huge spider's web was hung on a large sheet of black velvet in the ballroom and after supper the lights of the room were lowered and a huge spotlight thrown on the web, the center of which was an insect.

Miss Margaret Martin went over to the web and opened the heart, which held an engraved card with the names of the betrothed. The wedding is to be on an event of November.

Miss Bettinson is the fourth member of the Spinster to become a bride, the others being Misses Ethel Show Hollister, Miss Dorothy and Miss Dorothy Fulton. Miss Bettinson was graduated from Marquette School while Mr. Harbach is an alumnus of University of Illinois and is affiliated with the Delta Upsilon fraternity.

Delightful Affairs

Among the delightful affairs of recent date was the dinner party with which Mrs. William Irving Warner and her daughter, Mrs. William Harbach, entertained their friends at their home on North Washington Boulevard, in honor of Mrs. Georgia Wilson Ober, formerly of Los Angeles, who is now making her home in Topanga, Calif.

Friday afternoon Mrs. Ober is giving a luncheon for their visitors and also complimenting Mrs. Hansen Hansen, who has been just married from the church, and the same day many taking place in El Paso, Tex., the 9th inst. Mr. and Mrs. Collard Davis are at home at 3845 South Grand avenue.

For Visitor

One of the attractive visitors to Los Angeles this month is Mrs. Green Rivers of Mansfield, La., who is the mother of Mrs. George Rivers and Mr. and Mrs. Judson Claudine Rivers, at their home in Westchester Place.

Many delightful affairs are being given in honor of the visitor, among them a luncheon given by Miss Rivers, which Mr. and Mrs. William Booth Guyton are entertaining at their home in Irving Boulevard Saturday evening. Rivers will form the entertainment of the day.

Friday afternoon Mrs. Rivers is giving a luncheon for their visitors and also complimenting Mrs. Hansen Hansen, who has been just married from the church, and the same day many taking place in El Paso, Tex., the 9th inst. Mr. and Mrs. Collard Davis are at home at 3845 South Grand avenue.

Alumnae Meeting

Eta Tau Alpha alumnae will hold their first meeting of the fall season Saturday, the affair taking place at the Hotel Pacific Tea Room the same day having luncheon together, and the short business meeting will follow at which Mrs. Burton S. Grant, president, will outline plans for the year and bring to the members news of the organization.

All Eta Tau Alpha Southern California cordially are invited to both the meeting and luncheon, and reservations may be made through the secretary, Miss Ethel McNeil.

During the evening several instrumental selections were given by Mrs. Donald Campbell Daily (Miss Newton).

Miss Newton lately returned from several years study in Paris, and attended the University of Washington at Seattle, where she met Mr. Cally of Los Angeles, who also was studying there, the romance culminating several months ago in the wedding.

Returning to Los Angeles at the close of the college year, Mr. and Mrs. Cally will make their future home here.

Mrs. Ober has returned to her home in Topanga, leaving Los Angeles last Saturday.

Charles Garside Daily of 4811 Rosewood Avenue left for Twin Falls, Idaho, Saturday and will be gone for a month or six weeks.

Wedding Plans

Miss Dorothy Louise Francis, attractive daughter of Mr. and Mrs. Walter Allen Francis who has chosen the man she loves as her mate, has mapped out a simple ceremony Saturday, Oct. 13, at the home of Count and Countess Felix Von Luckner, who are visiting in Los Angeles this month, the former being engaged to have his luncheon and the bridegroom to make his tour of the country. At present his yacht Vaterland is anchored at San Pedro.

Honeymooning

Mr. and Mrs. Tillingshaw Magrison, whose wedding was an event of the 10th inst., in Oakland, are passing their honeymoon in Los Angeles during the month of October. On Friday when they will return to their home on Southern California Mrs. Magrison formerly was Miss MacFarlane popular Oakland girl.

For Bride-Block

Charming in its arrangement was the miscellaneous shower with which Mrs. J. H. Biederman entertained Miss Jeanette Strothoff, Mrs. John E. Higgins, sister of Mr. Edwards, Mrs. Norman G. Wells and Miss Pamela Tyler.

John Wayne Nixen will serve Mr. Edwards as best man and the usher will include Fay Taylor, George Wright, Ross Davies and Don Alfred.

A reception and wedding supper at the home of the bride's parents, 256

South Oxford Avenue, will follow the ceremony.

Many delightful affairs have been given in honor of Miss Francis since the announcement of her engagement among them being that with which her cousin, Mrs. Bert Dobald, in North Windsor Boulevard, the occasion also complimenting the bride's aunt, Mrs. Francis Shervood, who arrived from Cleveland, O., to attend the wedding.

Saturday morning Mrs. Richard Gibson gave a bridge breakfast for Miss Francis, and several affairs are planned for next week, including the presentation of Miss Weston of Wells, Miss Tyler and Miss Dorothy Baker.

Saturday evening, Mrs. George Alexander, chairman of the program, giving a dinner dance at Club Casa Del Mar with Miss Francis as the special guest of honor.

Wedding Announced

Mr. and Mrs. Louis Ross Maddox of 1105½ Echo Park Avenue announce the marriage of their daughter, Miss Elizabeth Maddox, to Alfred Frederick Collard-Dobald, son of the man taking place in El Paso, Tex., the 9th inst. Mr. and Mrs. Collard-Dobald are at home at 3845 South Grand Avenue.

For Visitor

One of the attractive visitors to Los Angeles this month is Mrs. Green Rivers of Mansfield, La., who is the mother of Mrs. George Rivers and Mr. and Mrs. Judson Claudine Rivers, at their home in Westchester Place.

Many delightful affairs are being given in honor of the visitor, among them a luncheon given by Miss Rivers, which Mr. and Mrs. William Booth Guyton are entertaining at their home in Irving Boulevard Saturday evening. Rivers will form the entertainment of the day.

Friday afternoon Mrs. Rivers is giving a luncheon for their visitors and also complimenting Mrs. Hansen Hansen, who has been just married from the church, and the same day many taking place in El Paso, Tex., the 9th inst. Mr. and Mrs. Collard Davis are at home at 3845 South Grand Avenue.

Alumnae Meeting

Eta Tau Alpha alumnae will hold their first meeting of the fall season Saturday, the affair taking place at the Hotel Pacific Tea Room the same day having luncheon together, and the short business meeting will follow at which Mrs. Burton S. Grant, president, will outline plans for the year and bring to the members news of the organization.

All Eta Tau Alpha Southern

California cordially are invited to both the meeting and luncheon, and reservations may be made through the secretary, Miss Ethel McNeil.

During the evening several instrumental selections were given by Mrs. Donald Campbell Daily (Miss Newton).

Miss Newton lately returned from several years study in Paris, and attended the University of Washington at Seattle, where she met Mr. Cally of Los Angeles, who also was studying there, the romance culminating several months ago in the wedding.

Returning to Los Angeles at the close of the college year, Mr. and Mrs. Cally will make their future home here.

Mrs. Ober has returned to her home in Topanga, leaving Los Angeles last Saturday.

Charles Garside Daily of 4811 Rosewood Avenue left for Twin Falls, Idaho, Saturday and will be gone for a month or six weeks.

Wedding Plans

The Piedmont Diner Club is giving a Banquet and program Monday evening at the Hotel Pacific, 45th Street, in honor of Count and Countess Felix Von Luckner, who are visiting in Los Angeles this month, the former being engaged to have his luncheon and the bridegroom to make his tour of the country.

All Eta Tau Alpha Southern California cordially are invited to both the meeting and luncheon, and reservations may be made through the secretary, Miss Ethel McNeil.

Miss Mildred Knight, last year's president will give an account of her interesting tour through Europe this summer.

Banquet Program

The Piedmont Diner Club is giving a Banquet and program Monday evening at the Hotel Pacific, 45th Street, in honor of Count and Countess Felix Von Luckner, who are visiting in Los Angeles this month, the former being engaged to have his luncheon and the bridegroom to make his tour of the country.

All Eta Tau Alpha Southern

California cordially are invited to both the meeting and luncheon, and reservations may be made through the secretary, Miss Ethel McNeil.

During the evening several instrumental selections were given by Mrs. Donald Campbell Daily (Miss Newton).

Miss Newton lately returned from several years study in Paris, and attended the University of Washington at Seattle, where she met Mr. Cally of Los Angeles, who also was studying there, the romance culminating several months ago in the wedding.

Mrs. Ober has returned to her home in Topanga, leaving Los Angeles last Saturday.

Charles Garside Daily of 4811 Rosewood Avenue left for Twin Falls, Idaho, Saturday and will be gone for a month or six weeks.

Wedding Plans

Mr. and Mrs. Tillingshaw Magrison, whose wedding was an event of the 10th inst., in Oakland, are passing their honeymoon in Los Angeles during the month of October. On Friday when they will return to their home on Southern California Mrs. Magrison formerly was Miss MacFarlane popular Oakland girl.

For Bride-Block

Charming in its arrangement was the miscellaneous shower with which Mrs. J. H. Biederman entertained Miss Jeanette Strothoff, Mrs. John E. Higgins, sister of Mr. Edwards, Mrs. Norman G. Wells and Miss Pamela Tyler.

John Wayne Nixen will serve Mr. Edwards as best man and the usher will include Fay Taylor, George Wright, Ross Davies and Don Alfred.

A reception and wedding supper at the home of the bride's parents, 256

Wednesday

"TIMES" MASON FETE PLANNED**Uncle John Arranging for Program Tonight****Radio Favorites to Appear During Evening****Splendid Numbers Offered From KHJ Studio****BY DR. RALPH L. POWER**
The entertainment features at the Times Masonic Club dinner tonight will be arranged by Uncle John and will present several radio favorites.

Charles F. Lindsey, professor of speech education at Occidental College, will deliver his "Mysteries of Speech," after which The Times Aloha String Quartet will offer a repertoire of popular tunes, to be followed by The Fergisons, Scottish harpoons, with piano accompaniment, by Samuel LeFevre.

Stories from Haroldines will provide plenty of mirth and laughter, while the Harmonic Band, accompanied by Alice Lee Wiley, will contribute vocal selections.

CHILDREN HAPPY

The children's hour of last night at KHJ, which followed the bouncy half-hour program by Jack and Don, radio duo, included Betty Astor, juvenile pianist; Mabeline Springer, "Nightingale," in readings; Lois Jane Campbell, "Brown Eyes," with recitations; Baby Jeanette, with songs; the Harmonic Band from the city playground department, and George Kerr, 13-year-old trumpet player, with a new radio repertoire.

A fifteen-minute period was given over to J. Wales Leopold, local comedian who has been a KHJ entertainer for many months. Mr. Leopold will be with a Pauline and Marlene act at the Westgate Theatre today, tomorrow and Friday, and the Manchester Theater for three days, concluding Saturday.

OTHER FEATURES

Other features of the night's broadcast included a violin and harp Spanish duet; Leo Factor, concert pianist, with classic selections; and Anna Gruen, violinist, presenting a solo.

In a D. Morgan, lyric baritone, accompanied by Agnes Birmingham, offered a weekly KMO program. Mr. Morgan is already a favorite with Southern California listeners on local programs. In fact, he has been known to Radioland for several years as a solo and KGO artist, although he has been in Los Angeles but a short time.

His accompanist, Miss Birmingham, offered two well-selected groups of piano solos, including the Beethoven "Scherezade," which elicited considerable applause from the radio audience.

DESERTED HUSBAND TAKES CHLOROFORM

Description by his wife was given as the reason for the suicide of J. S. Vanhook, 40 years of age, whose body was discovered in a room at 344 South Grand avenue yesterday morning. It apparently had been dead about four days. Notes left in the room indicated that Vanhook had taken chloroform and strangled himself over being left by his wife, Mrs. Gladys Vanhook, according to police. The body was found at the County Morgue.

Children's Hour Visitor at Studio

Glenn Fitz, "Optimistic Mascot" of KHJ

K-H-J The Times**TODAY'S PROGRAM**

NEWS OF SOUTHERN COUNTIES

SMALL COUNTY BIG PRODUCER

Fourth of Citrus Crop Value Comes from Orange

More Than \$20,000,000 Taken from Trees

Independent Growers Add \$2,000,000 More

ORANGE Sept. 13.—That the citrus district as represented by the Orange County Fruit Exchange will produce almost an eighth of the total orange crop value in the California Fruit Exchange area, which covers the entire state, was revealed yesterday. Returns were today by L. D. Palmer, Orange County Fruit Exchange manager.

Palmer based his statement on the estimate just made by the California Fruit Exchange setting the total value of the exchange at \$88,000,000, with the orange crop of \$8,000,000, making the total \$96,000,000. With returns as September 1, live cattle totaling \$7,759,226.51, the Orange County Fruit Exchange alone will have returned its affiliated associations \$8,000,000 by the time the season is closed.

This figure pointed out, represents approximately one-eighth of the total California crop value handled by the California Fruit Exchange. Just as the Orange county exchange handles approximately 75 per cent of the total crop in the district, the California exchange represents about the same ratio in the State. On this basis the total orange crop in the State is handled by the California exchange independently and other districts, especially the San Joaquin, should return California growers more than \$100,000,000, the most profitable year in the industry's history.

The local exchanges and the Northern Orange county exchange at Fullerton are each expected to equal the \$10,000,000 mark for returns making a total of \$40,000,000 for the exchange receipts in the two. These figures, which are conservatively estimated by the officials of the two organizations, represent nearly one-fourth of the total value of the California exchange.

In the orange district alone independent and other marketing agencies, which handle about 75 per cent of the total crop, are expected to reap returns totaling between \$2,000,000 to \$2,500,000.

The crop survey just completed by the Orange County Fruit Exchange places the total number of cars to be marketed in the State at 57,500, with each car returning approximately \$3500 in receipts.

Arranging for Lindbergh Day

SAN DIEGO, Sept. 13.—To help the local committee arrange a definite program for Charles Lindbergh, Milburn Kusterer, advance agent of the San Diego Chamber of Commerce, and Pauline Farnsworth, head of the Promotion of Aeronautics, will arrive in San Diego tomorrow. A meeting with special committee members will be held at the Chamber of Commerce at 10 a.m.

Until this meeting the local committee will make no date or arrangements. As it is, it is believed that the San Diego Chamber of Commerce is due to have Lindbergh bring his Spirit of St. Louis, is scheduled to arrive in San Diego about 2 p.m. the 23d inst., and to depart on the morning of the 23d inst. for Tucson, Ariz. The uncertainty of the program is more or less due to the fact that the advance agents are about two weeks behind schedule. "Training by train," they gradually are losing ground to Lindbergh's arrivals by air.

DANES TO CONTEST FOR VAN NUYS CUP

WAN NUYS, Sept. 15.—O. R. Harris, well-known business man here, has sent a gold and silver cup to Sinesburg, Denmark, where it will be the prize in an athletic contest to be held there on Sept. 22. The Danish Club, Harris last year was a visitor at Sinesburg and took part in the bowling event. He won, promising that next year he would return and prize him again. John Juhle, a leading business man at Sinesburg, by arrangement with the Danish government Juhle paid \$250,000 for the exclusive rights of wholesale and retail drug goods. Since that mark, which from the American viewpoint, Harris says, is rather an odd way to do business, one top of that Juhle also gives the king a percentage on his sales. "The queen does a whaling big business each year, despite the queer arrangement resorted to."

ART GOEBEL GUEST OF ROTARY CLUB

ALHAMBRA, Sept. 13.—Art Goebel, the winner of the Dole Hawaiian flight, and his navigator, Lieut. W. V. Davis, were the guests today of the Alhambra Rotary Club at its luncheon at the Alhambra Athletic Club. Both speakers were short talkers, fitting their experiences on the flight across the Pacific.

That the air race was not in, in spite of the lack of wind, was the opinion expressed by Lieut. Davis, who declared that it was a duty to carry on and to help in the development of aviation in the "spuds." "The visitors beyond the spuds," he said, "the martyrs belongs to the credit."

PECUATIC HIGH SCHOOL

IRVINE, Sept. 13.—All organizations of the city have been invited to take part in the dedication ceremony of the new Brea Union High School, the 22nd inst. The committee in charge has so far arranged a tentative program. It has been definitely announced that Lieut.-Gov. Pitts will be the principal speaker and that other notable men of the State will be present and participate in the program.

GILDED RETURN HOME

GRANADA, Sept. 13.—Mabel Lincoln Copeck, who has served as postmistress at the Maywood branch for some time, has resigned her position and the vacancy will be filled by Mrs. Lillian Barnhart. Mrs. Barnhart has been secretary of the Retailers' Association and assistant secretary of the Chamber of Commerce at Claremont, Okla., for several years.

COUNCILMAN TO TALK

GLENDALE, Sept. 13.—Councilman Frank H. H. Chapman of the Los Angeles City Council, who has been returned to his home in Van Nuys after being held by local police. She told officers she ran away because of asserted cruelty of her grandmother. She was en route to Santa Paula when detained here.

DEFER SALE OF CITY LAND

Alhambra's Share of Old Sewer Farm Subject of Heated Debate at Commission Meeting

ALHAMBRA, Sept. 13.—Alhambra's one-sixth share in the 600-acre tract farm located in Monterey Park was the subject of a spirited session of the City Commission today when bids for its purchase were opened. Action on the offers was deferred for two weeks after the Commissioners had listened to many heated protests against disposing of the land from citizens in the audience.

This is the third time the 100-acre tract has been offered for sale, the bids on the two former occasions having been rejected. Passaic, less than a year ago, sold her two-thirds interest to a Los Angeles real-estate syndicate for \$1010 an acre. South Pasadena has refused up to this time to sell her one-sixth interest in the farm.

In July, last, Alhambra advertised for bids on the land and an offer of \$1250 an acre was rejected. A week ago, another matter brought up and the city officials decided to submit the offers to a Los Angeles real-estate syndicate for \$1010 an acre. South Pasadena has refused up to this time to sell her one-sixth interest in the farm.

James Donahue, representing the James A. Donahue & Co. firm, J. B. Hansen and Nicholas Gabriel, A. E. Naylor & Mayo, Alhambra real-estate men, also represented a Los Angeles syndicate, which had been appointed for the different committees. Mr. Laubacher, president of the Bakersfield pioneer, was appointed for the different committees.

A program, talk and entertainment are being mailed by the Oxnard Chamber of Commerce to all the prominent dairymen in California to attend the annual dairy day on October 15, it was announced this morning by Roy B. Witman, chamber president.

A program, talk and entertainment are being arranged for the visitors who will have every opportunity for becoming acquainted with the dairy interests in Oxnard.

Community Center. The five grammar schools will be served at the Community Center. Frank E. Laubacher has been appointed by President Roy Witman, general chairman of the dairy day.

Mr. Laubacher, general chairman, has been appointed for the different committees. Mr. Laubacher, president of the Bakersfield pioneer, was appointed for the different committees.

Yellowstone Museum to Hang Wineman Photos of Presidential Party

A NEW collection of twenty-one camera studies of President Coolidge and members of his party, taken by Mode Wineman of Pasadena, nationally known camera artist, during the President's recent trip through California, will be hung in a Calvin Coolidge room in the park museum, park officials have announced. Mr. Wineman was the only member of the party not officially assigned to accompany the President, an invitation having been extended the Pasadena camera naturalist by the President after the party reached the park. Photos on this page are among those which will hang in the Calvin Coolidge room. (Photos through courtesy of Mode Wineman)

U.S.C. SCHOOL YEAR STARTED

Freshmen Enrollment Today
Expected to be 1500

New Students Addressed at College Assembly

Record in Attendance for U.C.L.A. Foreseen

Registration for approximately 1500 freshmen at the University of Southern California is scheduled for today, following a special greeting and instruction assembly conducted yesterday in Bovard Auditorium on the local campus.

Today's activities at the Trojan institution start with a breakfast for first-year women at 7 a.m. in the Women's Residence Hall. They will be guests of the Amazon Women's Self-Government Association, Women's Athletic Association and Fan Hellenic Association.

A psychiatric exam, required of all new students, will be conducted in Bovard Auditorium at 9 a.m. to be followed by a luncheon under the auspices of the Trojan Amasons and Trojan Knights. Registration will continue at 1:30 p.m. and will continue throughout the afternoon. President Rufus B. Von KleinSmid and the faculty of the university will greet the new students and their parents at their respective receptions in the president's suite at 8 p.m.

STUDENTS ADDRESSED

New students received their first taste of college life yesterday when they were addressed in Bovard Auditorium by faculty and student leaders. President Von KleinSmid told them California was welcomed them as prospective students. The president's talk officially opened freshman week on the campus. Dean Mary Simiar Crawford greeted the women who will enter the university when classes convene on the 15th inst.

New students will complete their registration today and tomorrow, according to the announcement by university officials, while returning members of the university will enroll on Friday and Saturday of this week.

RECORD FOR U.C.L.A.

Registration at the University of California at Los Angeles, the State Institution, will commence Saturday and continue formally through Monday of next week, according to a report from the Vermont Avenue university.

Advance admissions tabulated by Dr. Clarence H. Robison, university registrar, showed a record enrollment with 2400 new men and women already in line for admission. It is estimated that more than 6000 students will be enrolled when the school opens.

Registration will begin Saturday morning. Freshmen will register on Monday, according to the registrar's plan.

Housing has been barred by action taken last year by the student body against the administration of the university, and frosh caps and class krews will be the only college initiation to which the new students will be subjected.

Two Thousand Attend Ball by Film City Club

More than 2000 members of the 200 Club of Hollywood and their guests attended an inaugural ball last night given by that organization at the Ambassador Hotel.

The party, held in the early part of the evening, after which the guests departed at the time to dance.

Those in charge of the affair were John Laffey Johnson, manager; Charles E. Lamm, chairman of the floor committee; Orville Caldwell and Henri LaCocque, masters of ceremonies, assisted by the committee of 200.

Musical entertainment was furnished by Robert Davis, Paul Feinstein, Arthur Tavares, Glenn Kirchner, Artie Kalin, Jim Subini, Charlie Wellman, Connie and Clarence Leavenworth, E. K. Morris, Louis Jassy, Harry Gay, Doris Durand and Bob Crossland's orchestra.

Among those in attendance were Art Gossel, Mr. and Mrs. George, Mrs. Bert Goffield, Tom Miz, Joe Rock, G. E. Roberson, A. J. Branting, W. H. Lollier, Charles Cricket, Claude Crossland, William Fleischman, George Hauseman, Otto Olson, Harry Zanuck and Harry Zehner.

Chisel Thief Suspect Held on Four Counts

Exhibiting in court the chisel that earned him the police appellation of tunnel burglar, William Gardner, 18-year-old Chicago youth, yesterday was held by Municipal Judge Baird under \$6000 bail to answer to the Superior Court for trial on four grand larceny counts.

Gardner was taken into custody the 6th inst., by Policeman Berry. A suit case carried by Gardner was found to contain more than \$2000 worth of novelties, identified by Mr. Frank L. Price, manager of the Court Dress Store, as those removed from the store safe.

According to testimony adduced by Prof. F. C. Clarke, Gardner claimed he was then in a confectionery store at 2701 West Sixth street, a beauty parlor, tailor shop and drug store at 2708-5-7 West Sixth street.

PEDESTRIAN INJURED AT STREET CROSSING

Struck by an automobile, while crossing at Fifth street and Broadway last night, W. T. Thompson, 50 years old, son of 2007 Missouri street, received a possible skull fracture, abrasions and contusions. He is in a serious condition at Hill Street Receiving Hospital, where he was treated by Dr. Frank E. Kirkpatrick. Howie H. Knickerbocker, 18, and South Coronado street, was driving the car, according to police. He was not held.

MISSOURI RALLY TUESDAY

Former residents of Missouri will have a reunion next Tuesday evening at Moore Hall, 1024 South Grand avenue. The program will be in charge of W. T. Taylor of Pease, violin teacher.

U.S.C. SCHOOL YEAR STARTED

COMPANIONS PAY HIM LAST TRIBUTE

John V. Barrow, Jr.

VICTIM OF PLAYMATE'S GUN BURIED

Classmates from Military School Attend Funeral Services at Family Home

Burial services for John V. Barrow, Jr., 19 years of age, were conducted yesterday morning at Forest Lawn Cemetery. The funeral services were conducted at the home of Dr. and Mrs. John V. Barrow, 142 South Windham street, where the deceased was buried last Sunday and attended by many friends of the youth. Rev. Ray O. Miller, rector of St. James Episcopal Church, officiated. Classmates from Harvard Military School, to whom he would have been a sophomore this year, attended. Scores of floral pieces evinced the esteem in which the deceased was held.

On the 5th inst., Barrow was wounded by the accidental discharge of a gun in the hands of Fisher Miller, a playmate who had all attempted to save his life. He passed away early Saturday morning.

The father of the deceased, Dr. John V. Barrow, is a widely known physician.

Huntington Beach has been barred by action taken last year by the student body against the administration of the university, and frosh caps and class krews will be the only college initiation to which the new students will be subjected.

TICKETS AVAILABLE

Chamber Makes Arrangements for Luncheon to Thompson

Tickets for the informal dinner last night at the Breakfast Club at which Mayor Thompson of Chicago will be honored guest will be available at the Chamber of Commerce, according to A. G. Arnall, secretary and general manager of the Chamber.

It is planned by the Chamber to assist in handling the tickets for the evening entertainment as well as for luncheons on other days tomorrow and the following days.

Leo Doss, past-department commander, chairman, introduced several commanders of Southern California posts, who gave short addresses.

Other speakers were Justin Miller, dean of the U.S.C. law college, Mr. George L. Shultz, president of the American Bar Association to the local organization, and Joseph Webb of San Francisco, who led the fight for the adoption of bills by the Senate and Municipal courts also were introduced.

The entire open court of the exhibit will be used for display of prizes to be given away during the evening. Food products will be shown, demonstrated and sampled.

Visitors are to be asked to buy these products by trade names. Household furnishings and other products will be described, demonstrated and displayed.

The program will include a for-

ign-sign-round-table discussion at 3 p.m. in industry communities.

On the 6th inst., there will be a demonstration from 8 to 9, entertainment from 7 to 9, music and dancing for the rest of the evening.

The luncheon, to be given by the Chamber, will be at the Alexandria, with the dinner at the Hotel Lido.

"Food Control" will be the topic discussed by Mayor Thompson at the luncheon.

In the evening, the meeting will be held under the auspices of the Pan-American Council, Council and the Breakfast Club, and will be supported by the Chicago Club, the Illinois Society and the Mayor's office.
